

Handbook of Satellite Remote Sensing Image Interpretation

*Applications to Marine Living Resources
Conservation and Management*

Edited by:
Jesus Morales
Venetia Stuart
Trevor Platt
Shubha Sathyendranath.

A European Union Initiative supported by the International Ocean-Colour Coordinating Group and FARO (Fisheries Applications of Remotely-Sensed Ocean Colour), a GEO Task supported by the Canadian Space Agency.

Handbook of Satellite Remote Sensing Image Interpretation: Applications for Marine Living Resources Conservation and Management

Edited by:

Jesus Morales, Venetia Stuart, Trevor Platt and Shubha Sathyendranath

In conjunction with the EU PRESPO Project for sustainable development of the artisanal fisheries in the Atlantic area, within the INTERREG IVB Programme (a Community Initiative to stimulate inter-regional cooperation in the European Union)

This report is based on contributions from (in alphabetical order):

J. Acker, J.J. Agenbag, S. Alvain, R.J.W. Brewin, R. Cajal-Medrano, J. Cannizzaro, K.L. Carder, J. Dachs, D. Dagorne, H. Demarcq, L. Duforêt-Gaurier, L. Escudero, M-H. Forget, C. Fuentes-Yaco, A. González-Silvera, N.J. Hardman-Mountford, M-X. He, T. Hirata, N. Hoepffner, C. Hu, E. Jurado, T. Kuroyama, Z. Lee, D. Li, X. Li, J. Liu, Z. Liu, H. Loisel, F. Mélin, R. Millán-Núñez, R. Mugo, F.E. Muller-Karger, A. Nihira, C. Paulino, W.G. Pichel, T. Platt, A.I. Prados, S-I. Saitoh, E. Santamaría-del-Ángel, S. Sathyendranath, R. Simó, I. Soto, V. Stuart and F. Yu.
